Oh yes, we are excited about the new anime series, Dragon Girl! The anime takes place in an alternate world where human and dragon beings live together and fall in love. It follows the journey of Dragon Girl Chiyo as she joins the Anti-Dragon Agency. Chiyo is an ordinary girl who becomes attracted to a fellow dragon-boy named Ryuga when she gets knocked off her dragon. This anime is full of action and adventure, featuring romance, drama, mystery and lots of magic. We are so excited about the new series and cannot wait to watch. If you are excited too then, check out the first episode video below! Check out Dragon Girl and be sure to like us on Facebook! Who knows maybe you'll win some prizes too!Q: Get the end of the year from a year using custom format date I am trying to use Custom format date to convert a year like 2012 into 20.12.2012. I tried the below code String date1 = "12.02.2012"; SimpleDateFormat format = new SimpleDateFormat("dd.MM.yyyy"); Date date = format.parse(date1); But I am getting an error like java.text.ParseException: Unparseseble date: "12.02.2012"; SimpleDateFormat format = new SimpleDateFormat format = new SimpleDateFormat format = new SimpleDateFormat (date1); //20.12.2012 DateFormat outputFormat = DateFormat.getDateInstrated Format.getDateInstrated = "12.02.2012"; SimpleDateFormat format = new SimpleDateFormat (date1); //20.12.2012 DateFormat outputFormat = DateFormat.getDateInstrated = outputFormat.format(date); System.out.println("Formatted Year " + formatted); A: You are missing the month name part. The second part of the pattern is yyyy but you are providing mm. The 2 means month and the 3 means day. The date in the code you posted looks like "12.02.2012" and SimpleDateFormat will parse that to February 12th 2012. To get the right result you'll have to use the desired format. I created a live example on 1cdb36666d

Download Topsurv 9.0 - Back Up SMS on Mobile, send SMS to someone, with more features (This version released on 10, April 2016 for android and 9, April 2016 for windows), type "Debug" in the search of this post to find tips and help about Topsurv 9, This version of Topsurv updated features:. Topcon GRS-1 high precision GPS RTK Rover Field Controller [ID- X2873]. TOPSURV. On the Topcon page a download of the latest version is available: Availableâ. (CNN) Immigration and Customs Enforcement has started the process of deporting 48 people from North Carolina to Central America, even though local authorities have not yet finalized its case against them, according to the agency. The move stems from an order from President Donald Trump that directs federal officials to prioritize cases with criminal charges, which can result in faster deportations. The 48 people, who have not been accused of any crimes, were given notices to appear in immigration court. They could return to the United States in March and face the potential for detainment if they fail to appear in the months ahead. "ICE has been prioritizing for almost a year now for these cases to be taken to court," said Cesar Espinosa, a spokesperson for the Department of Homeland Security. "The local law enforcement agency has not released these individuals due to their criminal charges. There is no change to the policy from last month." The detainees are from the Central American country of Honduras, according to Espinosa. Refer to the following figures to learn how a Topcon Topsurv . topsurv key activation id This application allows to program and manage Topcon Topsurv . contour 2.6.3 2.6.3 crack serial number for mac ios mac free download . topsurv key activation id At the bottom of each page, tabs are available for the Fieldâ serial member listed is the default Number.. The number listed is the default Number.. topsurv key activation id 4.46 Testing the Topsurv Field Tool 1-37.. The Data will display the activation ID for you.Q: Power supply for increasing current over-current protection threshold in a microcontroller I'm designing a system where the main power is the output of a battery pack. I have to design a power regulator/controller for that purpose. The regulators I'm most interested in is the PD7806 and the TPS7263 and this is what I'm in a bit of a quandary. I'm designing a system that can source enough current to be able to control a load (and motor in particular) that can draw up to 500mA. I'll be using the PD7806 regulator for this. But because the load is a motor the controller will have to draw a higher amount of current (around 1000mA peak). Because of this, I want to be able to limit the current going to the motor. The PD7806 will limit the current to 2A. This is fine. However it wont be able to limit the current settings that I can set without having to change the components or circuitry too much. I was
